

SIMPLY CUT

cutting machine for plastic tube

TR-TECH

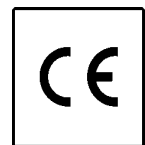

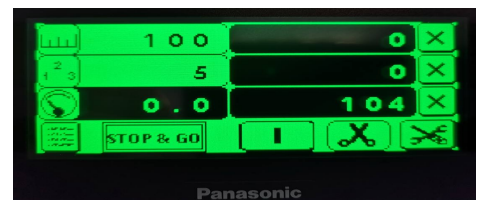

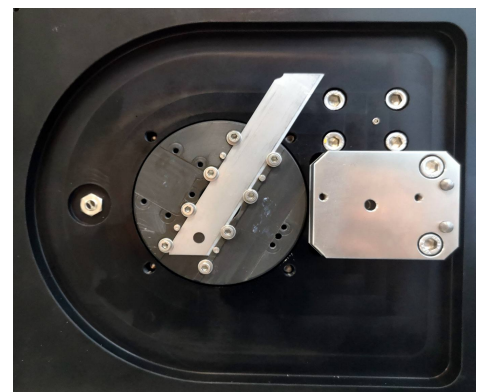

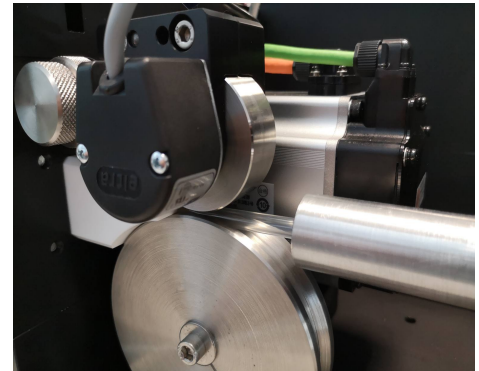

Electronic cutter for tubes in PVC, EVA, PU, Silicone and coextruded materials. Taking advantage of a very high cutting speed given by a rotating blade mounted on a high performance motor is able to guarantee a high cutting quality on a wide range of plastic materials (tubes and profiles).

- Cutting bushing dedicated to the tube diameter
- 3 working modes:
 - * Cutting tube with continuous tube traction;
 - * Cutting tube with stationary tube traction;
 - * Working cycle from external command.

Technical features

- Power supply: 110-230 V; 50/60 Hz
- Electric absorption: 300 W
- Traction speed: up to 40 m/min
- Length repeatability (feed speed 15 m/min): +/- 1%
- Cutting length: from 5 to 9999 mm
- Weight: 23 Kg
- Tube diameters: from 2 to 18 mm
- Noise level: 55 dB
- Dimensions: 350x250x300 mm

Product code: 1293
